

Are you sick of your wellness program?

- ❧ We can help you get out of your wellness contracts and possibly even recover fees/damages from vendors and/or consultants who've deceived you about wellness.
- ❧ We offer expert witness and other litigation support services.
- ❧ We are co-founders of the most innovative approach to wellness in the industry's history: Quizzify, where we teach employees that *"Just because it's healthcare doesn't mean it's good for you."*
 - ❧ We also do something no other wellness vendor does: we offer a guarantee in which up to 100% of our fees are at risk.
